

Catalyst CommonView and GradeBook

CommonView Workspaces for your Course

- Easily organize (and re organize) information and resources
- Gather files, links, tools online in course workspace
- Provide easy access for students via URL or their Catalyst account

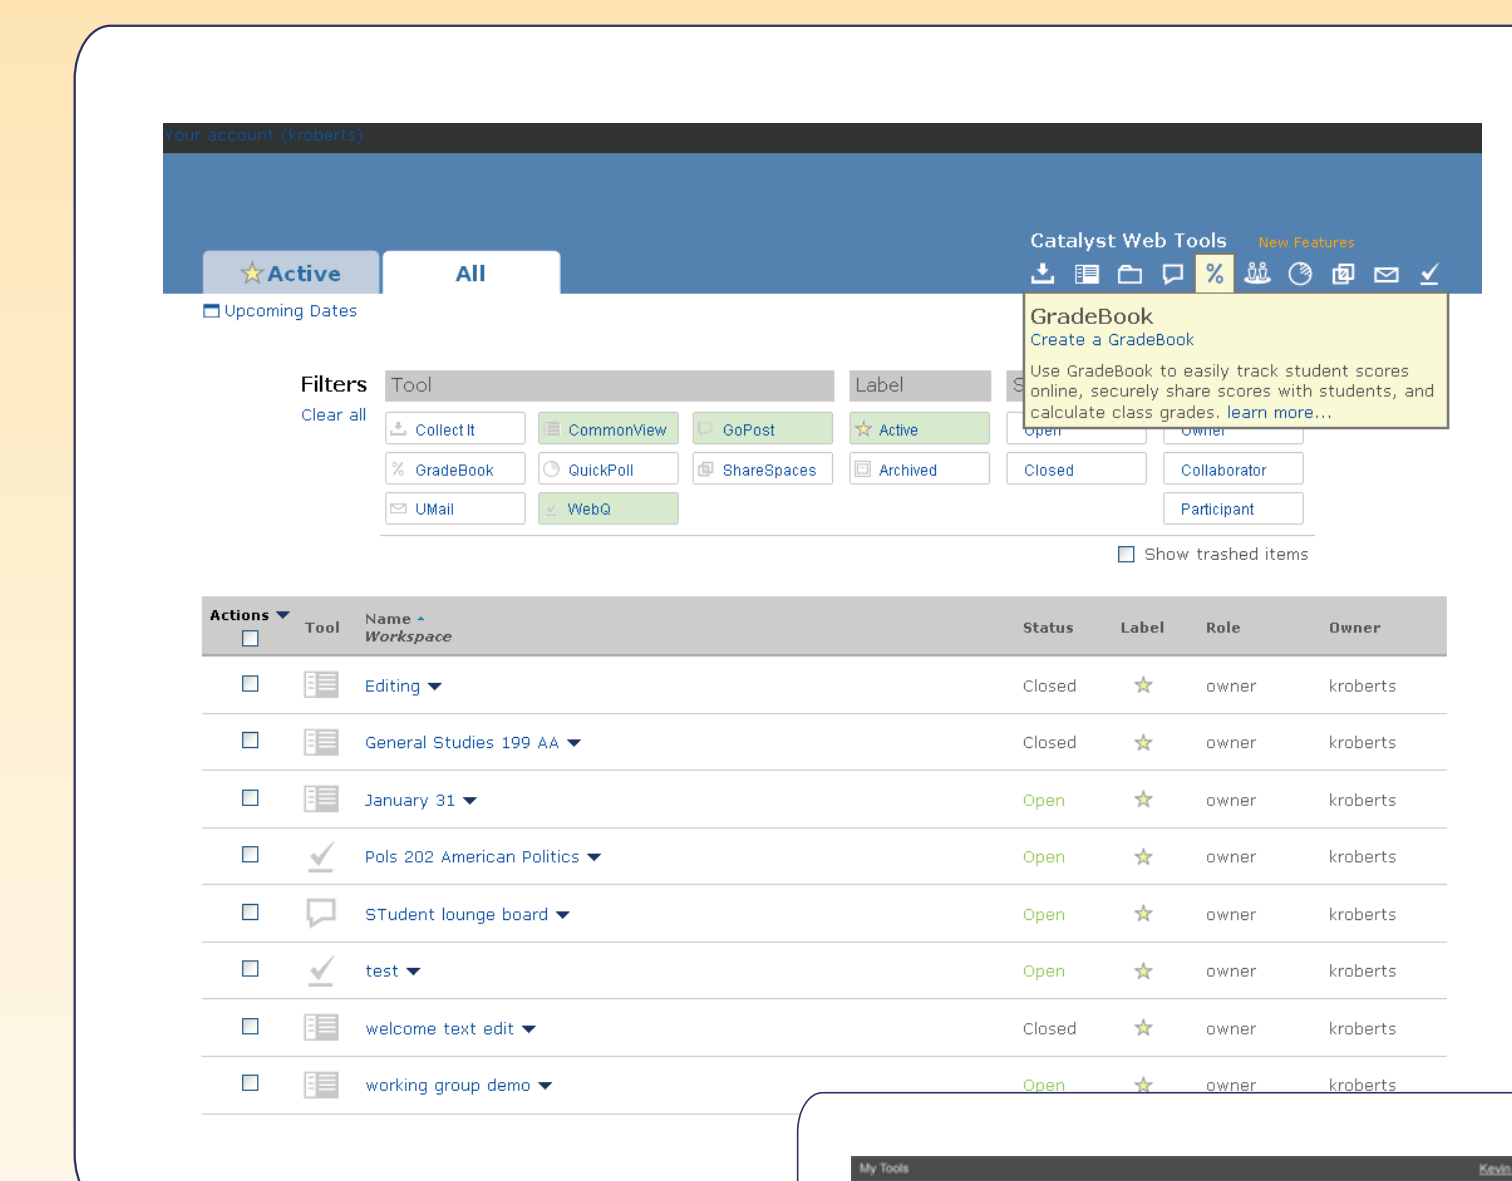

Track and Submit Grades with Gradebook

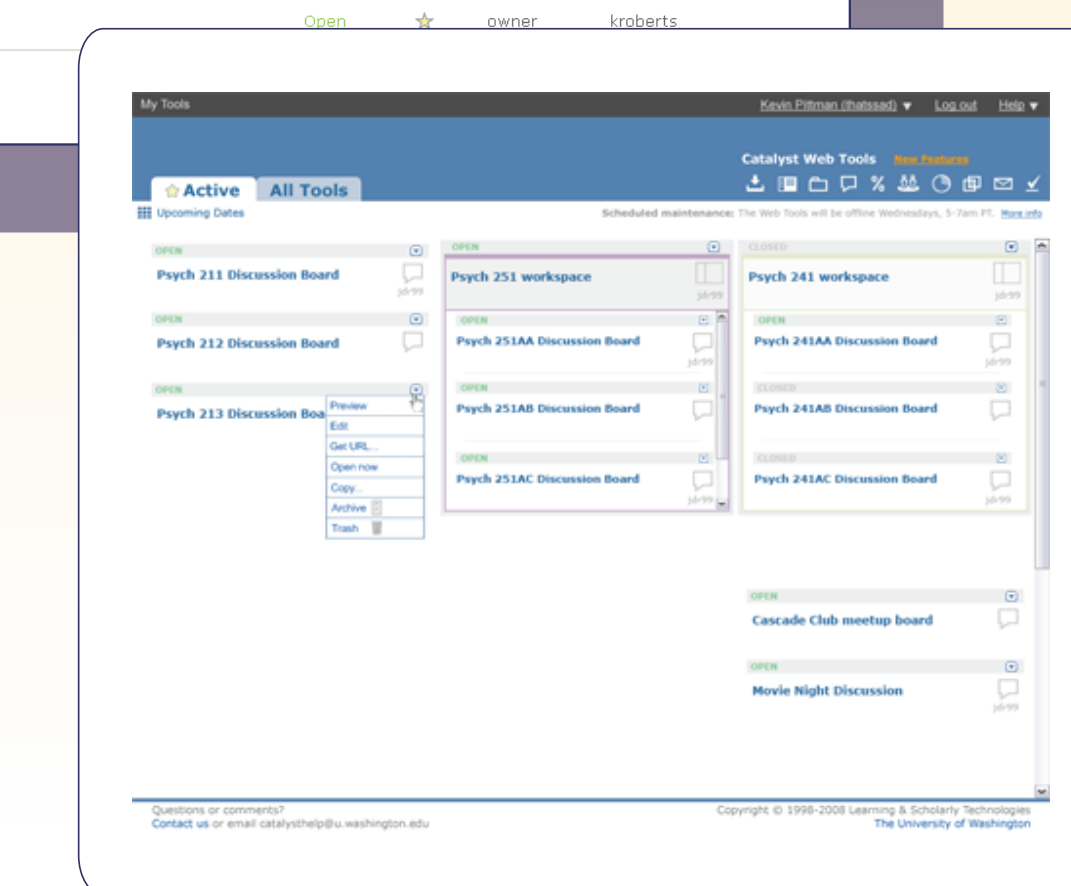

- Record and track scores online
- Publish scores securely for students
- Import scores from Excel
- Import WebQ quiz scores

Coming Soon – the New Face of Catalyst!

We're redesigning the Catalyst account page from top to bottom to make it easier for you to get your work done. The new account page lets you find what you need quickly, and focus on what's most important to you.

- Use the filters to quickly find just the item you're looking for, and then get to work.
- Highlight important items and mark them active
- Archive items you aren't currently working with
- Trash items you don't need to clean up your page

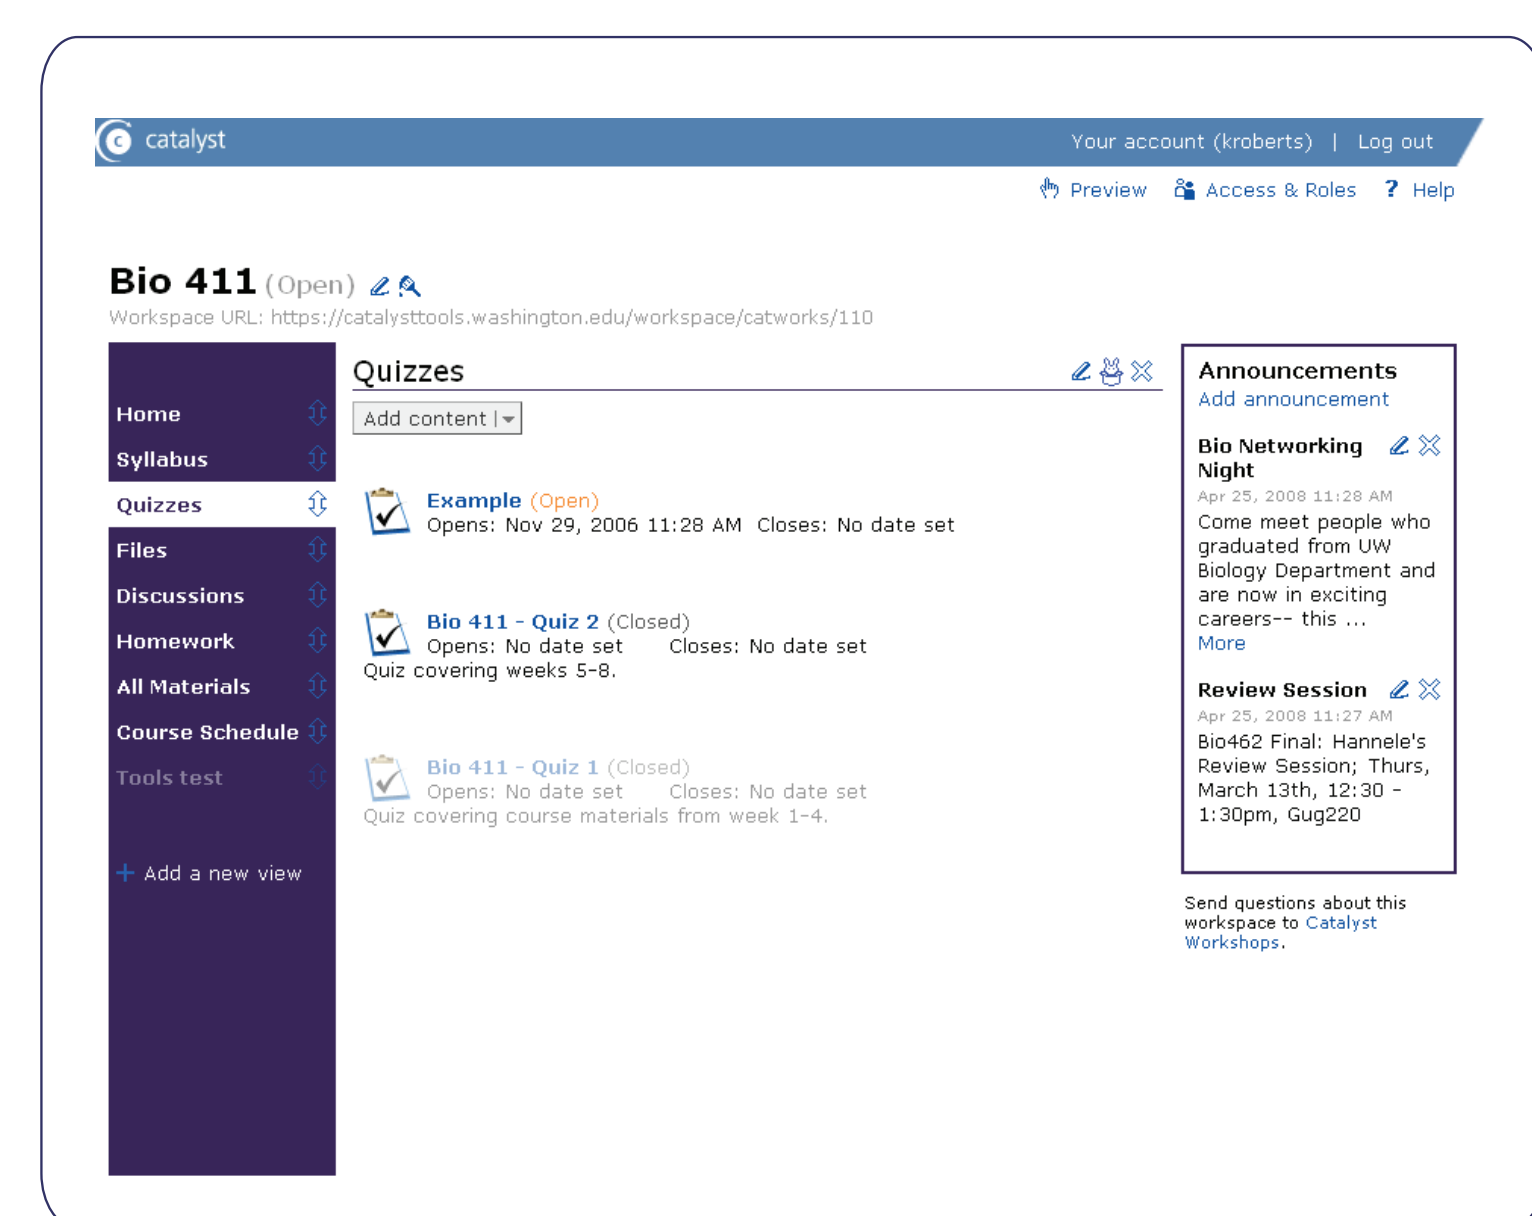

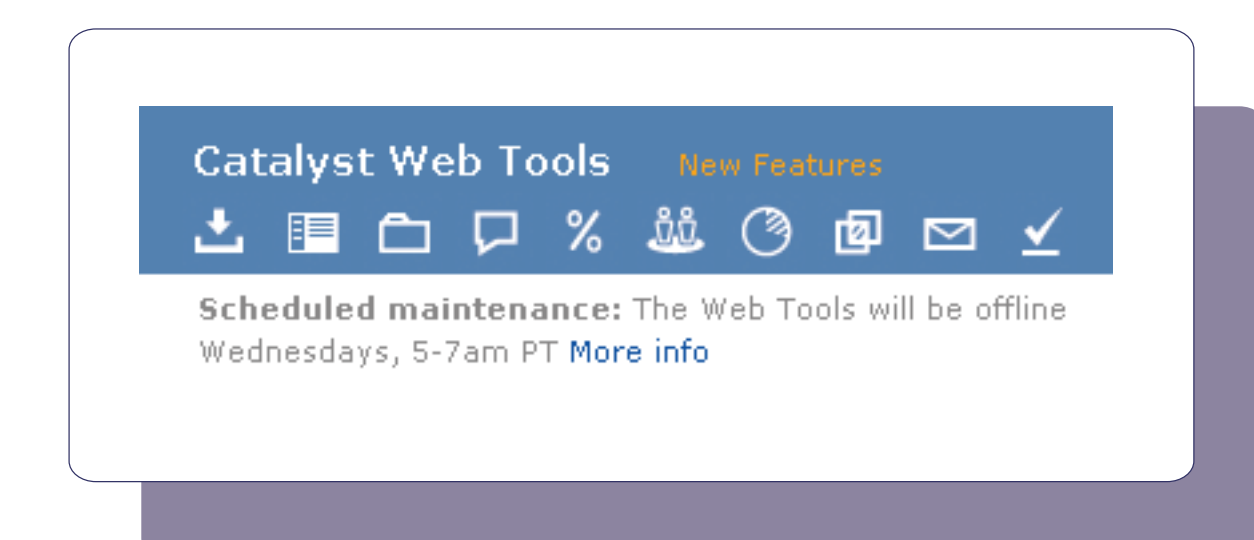

Select important or current items to work with in the "active" area. Click and drag to organize items in the way that makes the most sense to you.

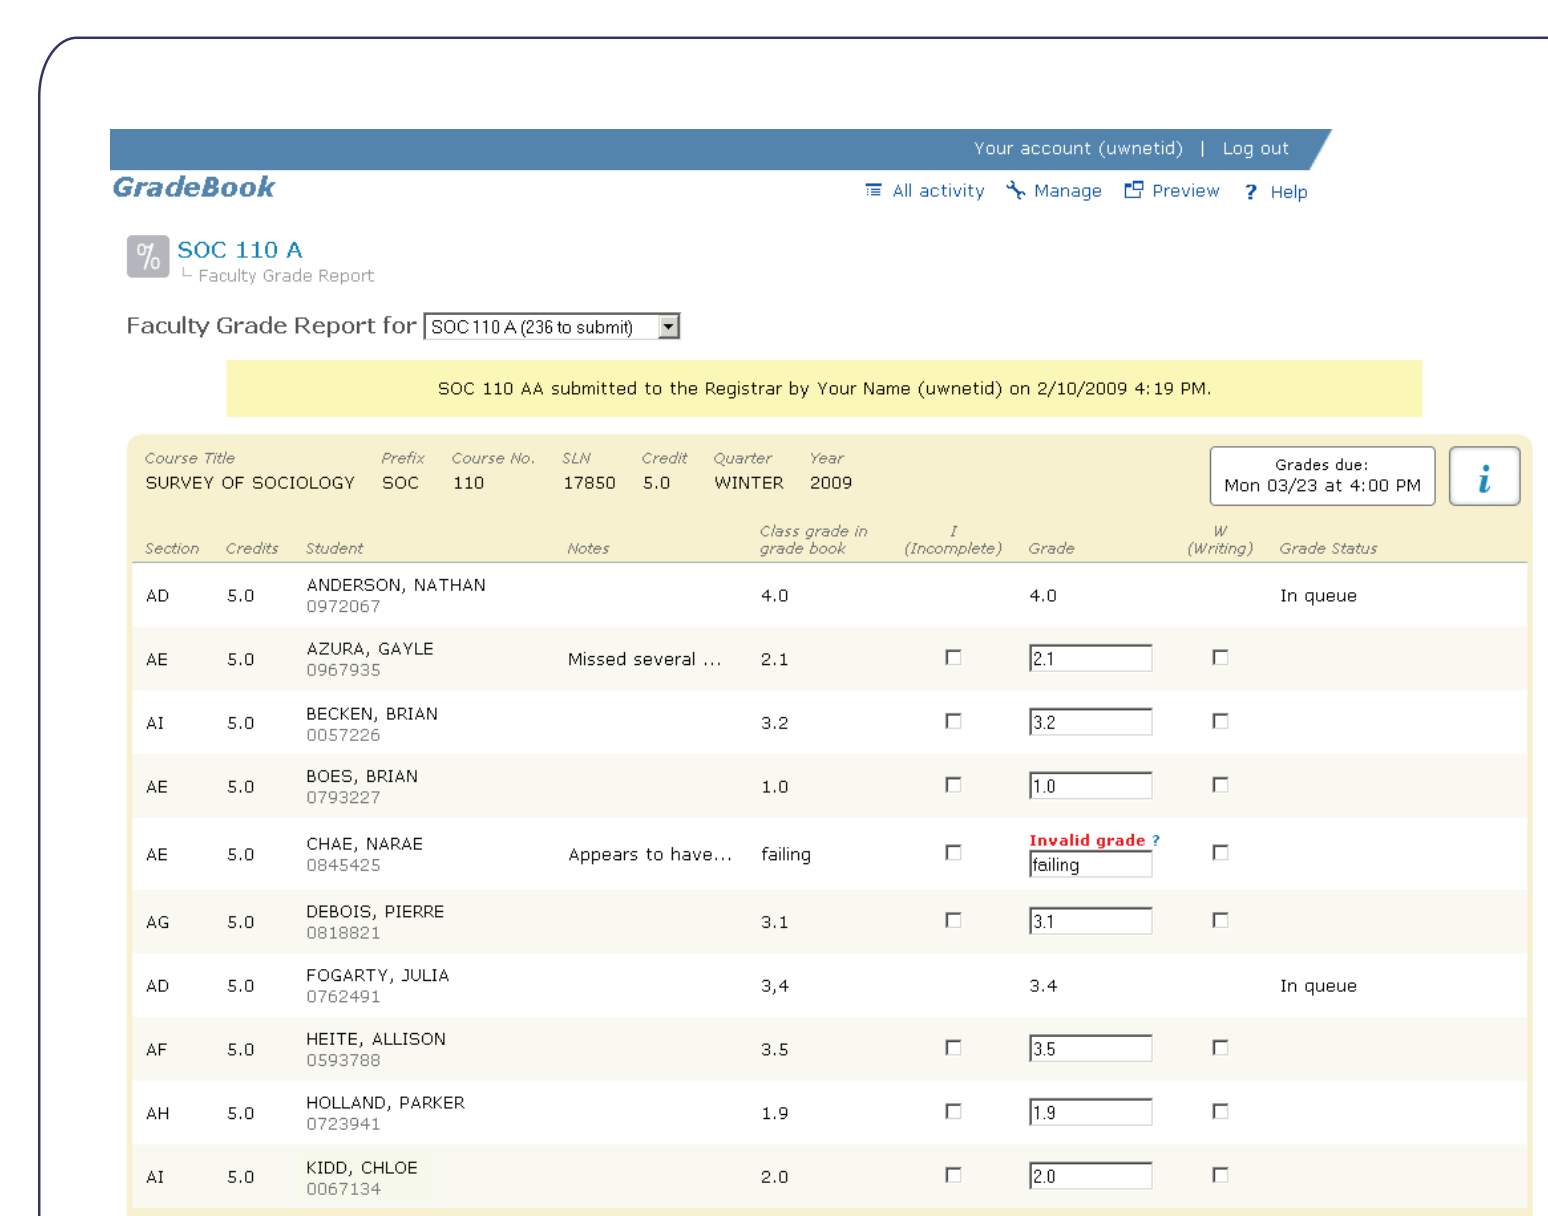

Create an online workspace for your class in just a few minutes! Manage your class materials and Web tools from one central location.

GradeBook makes it easy to record student scores, share them securely with students, and coordinate grading with co-instructors and teaching assistants. Now you can submit your class grades online!

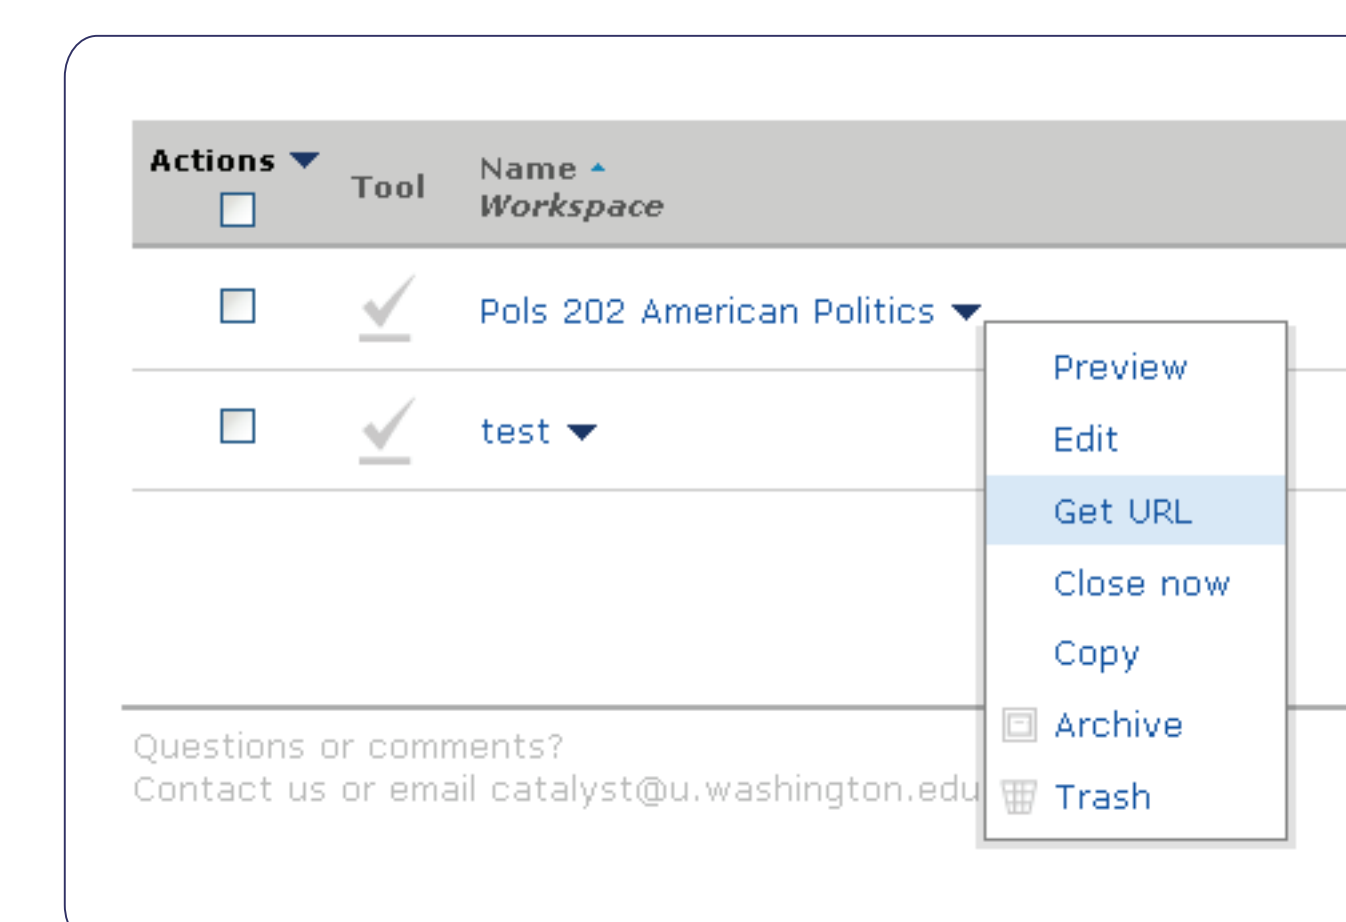

Use the graphic Web Tools menu to jump right in and create tools.

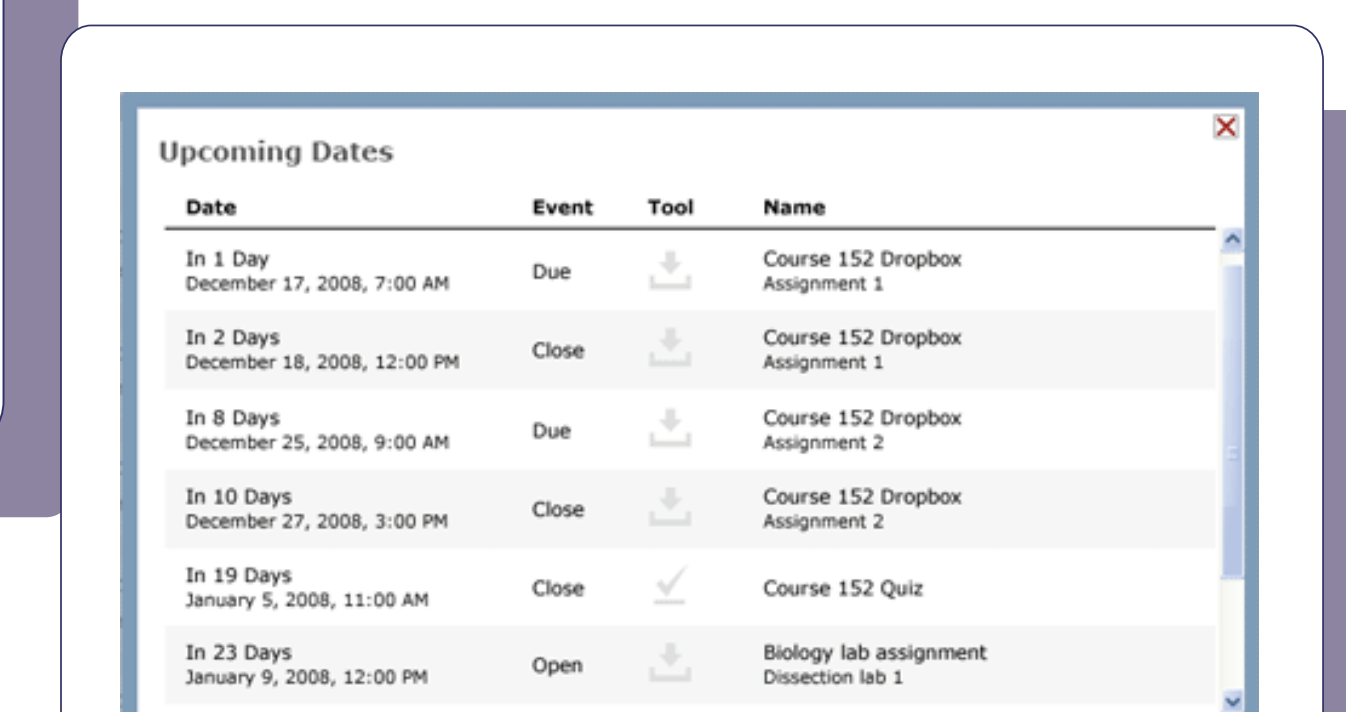

- Post announcements for students to see
- Hide or show to release content, files, and tools as class progresses
- Navigate easily amongst class discussion boards, dropboxes, quizzes, and grade book
- Give co-instructors access to help you edit

- Submit final class grades online from any convenient location
- Receive email notification that grades were submitted
- Print a receipt for your records

Complete common tasks -- such as preview, edit, or copy -- directly from the account page.
