### MESSAGE WAITING INDICATOR
If there are new messages in your Voice Mailbox, the light on the top right corner of your telephone will be lit solid red. In addition, the Message button will also be lit. The lights will turn off once you have listened to your new messages.

### PHONE DISPLAY
The display contains the following information:
- The top line shows your extension number as well as the date and the time.
- If you have missed calls, the left hand side of the top line will display the missed call icon and the number of calls you have missed. Your HISTORY button will also be lit.
- The Prompt Line will display prompts to help you navigate through extra features on your telephone.
- The Line button area alternates between the extension lines you use to place and receive calls and the features that are programmed on your telephone.
- The line buttons include LED lights which will show a green light when a line or feature is active.
- The bottom of the display screen is the softkey area. When the phone is idle, you will see at minimum a Redial option. While on a call, the softkey features will include: Hold, Conf, Transfer, and End Call.
