To access and use a cube, first open Microsoft Excel on your computer and start a new blank workbook. 

*Note: You are not limited to only Excel. You can follow similar steps using Tableau.*

Next, the "Data Connection Wizard" will open. You will use the wizard to connect to the

Next, choose the database connection and cube that you want to view.

Example: I want to view "ResearchAdminData" cube.

- From the database dropdown, select "ResearchAdminData"
- From the list, select "ResearchAdminData"
- Select "Next"

That's it! Now select "Finish" and you are connected to the cube!
